

### Industrial Solutions - Areas of Application

- Tank Cleaning
- Bitumen Removal
- Iron Scale Removal
- Calcium & Magnesium Scale Removal
- Pickling/Passivation
- Heavy Duty Laundry
- Heavy Duty Vehicle Wash
- Shop Floor Cleaning
- Corrosion Inhibition
- Scale Inhibition
- Rig Wash
- Invert Mud Cleaning
- Downhole Oilfield Chemistry
- Parts Washing
- Anti-foam
- Aluminum Brightening
- Toll Blending

## Industrial Solutions

Chemistry Solutions  
Industrial Strength  
Environmentally Responsible

**Green water-based degreasers**

**Green acid replacements**

**Solvent-based degreasers**

**H2S Scavengers**

**Vapour phase chemistry**

**Silicone anti-foam**

**Non-silicone anti-foam**

**Traditional acids**

**Inhibitor chemistry**

DISTRIBUTED BY:

**Syncrude Canada**

“The chemical products supplied by Sci-Tech Engineered Chemicals for this cleaning and maintenance process are Bitusol Delta and Protocol K-301. The chemicals meet Syncrude’s functional and safety standards while providing superior performance characteristics”

*Robert Babin*

**Clariant Oil Services**

“Sci-Tech has provided us with a product turnaround time that has exceeded our expectations. Sci-Tech’s service extends beyond timely blend production to inventory control, packaging options, transport logistics, internal paperwork and personnel communications.”

*Jonathan J Wylde PhD*

**Edmonton Fire Rescue Services**

“We are pleased to say the Protocol products have exceeded our expectations environmentally speaking and performance wise.”

*Merrilee Dent*

**Via Rail Canada**

To date, you have assisted Via Rail in reducing the number of cleaning chemicals used on our equipment and facilities. In all my years in the Materials Management field, I have never seen such an overwhelming agreement to the use of products from the employees as I have with what you have introduced to us. This is an amazing accomplishment to have so many workers agree on the products to use in their workplace. As an added benefit to the products you have introduced, we have found that Via Rail is able to reduce our overall cleaning costs due to the concentrations provided, reduction of products used, reduction of lost time from employees and effectiveness of the products.

*Chris Lyth*
